**Salzer Products LLC are the developers and providers of the ONLY “Permanently Installed, Automated Drain-Jetting System”. Our Patented system flushes the drain lines with 3-4 gallons per second, at intervals and durations controlled by our computerized interface.**

**The system clears the lines of potential clog causing debris, thus reducing clogs by 75% - 100%. The System pushes debris through “bellies and flat lines” out to the streets main line. DrainJet Systems can also jet sinks, floor sinks, trench drains, etc...**

**Since DrainJet Systems began installations in 2014, No Client has had a clog in their sewer line. Prior to the installations, the clients suffered through 2 - 6 clogged lines per month.**

**Clients that have had the system installed:**

**Home Depot • David’s Bridal • Rite Aid • Chipotle • Red Robin  
Wawa Stores • Staples • Vitamin Shoppe**
